10:30-13:00

TREVILAB

The **Claudio Trevi Cultural Center** has become a key reference point for the cultural life of the city of Bolzano and beyond. It is dedicated to promoting the activities of the Italian Culture Department and the cultural associations linked to it.

The **Trevi Center's** spaces offer citizens numerous opportunities to engage with culture and art through constructive explorations aimed at fostering personal growth and reflection, especially for young people. The building also hosts the Audiovisual Center and the Multilingual Center.

What are words made of?

Workshop with Ledo Prato

We will host a workshop on the power of words, led by **Prof. Ledo Prato**, Secretary General of Mecenate 90 and expert in cultural policies. The association was established in 1989 to promote collaboration between public, private, and social entities for the enhancement and management of cultural heritage.

In addition to reflecting on images, we also want to focus on another medium that continues to influence our lives: **words**. If you are someone who loves to uncover the meaning of words and wants to become more aware and responsible in their use, this workshop is for you.

High school students are invited to participate, and registration is possible by sending an email to **studio.openspace@gmail.com**
